Dear valued customer:

As you are likely aware, the incoming US Administration has made several statements regarding potential tariffs with a variety of trading partners throughout the globe. The various countries have in turn made statements in response.

Right now, it is all hypothetical. We are monitoring the situation closely, as we're all aware of how tariffs can impact a variety of areas: pricing, product availability, the supply of raw materials for our manufacturing partners, foreign exchange rates, and freight and fuel surcharges. We remain committed to sharing the relevant information we receive from our supplier partners with you transparently as it becomes available to us, and to working with you to minimize the impact of any potential actions wherever possible.

We appreciate your business and look forward to supporting your product needs. If you have any questions, please reach out to your local Convoy representative.

Sincerely,

Jean-Marc Sager
